

They Did What?! Challenge

Six Feet of Love or Six Feet of Gratitude
(#sixfeetoflove #sixfeetofgratitude)

2020 has been a different year and has been difficult for many. Here's a challenge designed to help you lift the spirits of people around you by sharing the goodness of God. The COVID restrictions might make it tougher to let others know we care but with a little creativity we can still show the love of Christ to others.

Each family will be challenged to find a unique- to- their -family way to show six feet of love or gratitude.

Families are to create six feet long messages of thankfulness and love and attach the poem to their project.

Attach this poem to a small card... or write your own poem!

*Although we stand six feet apart,
We feel much closer in our hearts.
It's been tough and we're not through
But God's been good, and He's been true
We want to show God gratitude
and share six feet of love with you.*

Examples of activities (feel free to create your own):

6-foot-long obstacle course- include 6 feet between each activity

6-foot-long line of baked goods

6-foot-long paper chain with encouraging thoughts or Bible verse on each link

6-foot-long banner or chalk mural

6-foot-long sandwich

6-foot-long pile of raked leaves

Challenge ends: Thursday, November 5 at 5 p.m. (EST)

Submit your challenge here (photos or video):
